Introduction
Welcome to the Australian College of Rural and Remote Medicine (ACRRM), the home of the Rural Generalist.

ACRRM is a professional college accredited by the Australian Medical Council to define standards and deliver training in the medical specialty of general practice.

ACRRMs standards and training program prepares medical practitioners to practise safely and confidently as rural generalists. Attainment of Fellowship (FACRRM) leads to specialist registration as a general practitioner with the Medical Board of Australia.

Being a rural generalist means you have specific expertise in providing medical care for rural and remote or isolated communities. As a rural generalist you understand and respond to the diverse needs of rural communities including; applying a population health approach, providing safe primary, secondary and emergency care, culturally safe Aboriginal and Torres Strait Islander people’s health care and providing specialised medical care in one or more of the Advanced Specialised Training disciplines offered by ACRRM.

This handbook has been designed to support ACRRM’s training program policies and provide you with comprehensive information to enable you to plan and tailor your training and education needs to attain Fellowship.

Curriculum
The Rural Generalist Curriculum provides a definition of Rural Generalist Medicine and describes the competencies, knowledge, skills and attributes required to be a rural generalist medical practitioner.

The curriculum informs the training, education and assessment requirements to achieve Fellowship. Therefore, an understanding of the curriculum is essential for all registrars.

The Curriculum competencies are structured under the eight domains of rural and remote practice.

1. Provide expert medical care in all rural contexts
2. Provide primary care
3. Provide secondary medical care
4. Respond to medical emergencies
5. Apply a population health approach
6. Work with Aboriginal, Torres Strait Islander, and other culturally diverse communities to improve health and wellbeing
7. Practise medicine within an ethical, intellectual and professional framework
8. Provide safe medical care while working in geographic and professional isolation

The curriculum consists of Core Generalist and Advanced Specialised components. Registrars must demonstrate meeting all competencies at the Core Generalist standard and choose one specialised area in which they demonstrate meeting the competencies at the Advanced Specialised standard.

These standards are described in the curriculum. The Curriculum also details the knowledge, skills and attributes in 37 clinical and non-clinical Learning Areas. The Learning Areas all include Core Generalised content and Advanced Specialised content is included for the approved AST disciplines.
Fellowship Training Program

Components of training
The training program is aligned to the eight domains of Rural Generalist Curriculum and underpins the learning areas included in the Core Generalist and Advanced Specialised components of the Curriculum.

Core Generalist Training
Core Generalist Training (CGT) covers three years of training
- developing broad generalist knowledge, skills and attributes in primary, secondary and emergency care in a rural and remote context, and
- fostering essential rural generalist knowledge and skills in paediatrics, obstetrics and anaesthetics.

Advanced Specialised Training
Advanced Specialised Training (AST) covers one year of training
- building on the core generalist competencies and increasing knowledge and skills in a procedural or non-procedural discipline
- in a specialised area relevant to the needs of rural communities
- to allow autonomous delivery in a defined scope of specialist clinical practice.

Training program summary
The table 1 below provides a summary of the training program requirements.

Commencement of training

Registrars who hold general registration and are in post graduate year (PGY) 2 must commence with CGT and undertake the first 12 months full time equivalent (FTE) in a Postgraduate Medical Council (PMC) accredited post.

Registrars who hold general registration and are PGY3 or above may commence training with CGT or AST in an ACRRM accredited primary or secondary care training post as applicable.

Registrars who hold limited or provisional registration require an individual training plan approved by the Director of Training at the commencement of training.

Order of training

CGT and AST can be completed:

- Sequentially in either order, providing that prerequisites for the AST have been met or
- concurrently, undertaking CGT and AST part-time.

If AST is undertaken at the beginning of training, a registrar must maintain currency in the discipline until the completion of training.

It is important to plan timing and sequencing of training, education and assessment activities. This training plan should be started at the beginning of training and reviewed regularly throughout training.

Core Generalist Training

Core Generalist Training (CGT) may be started at PGY 2 or above. Training program requirements must be met in four areas: time, training, education and assessment.

Time

CGT requires a minimum of three years full time equivalent (FTE) as described in the Training Time policy.

Training

All training must take place in accredited training posts. Training placements must provide the opportunity to gain the required scope, type and volume of clinical experience, at an appropriate level of responsibility.

ACRRM accredits training posts for CGT in regional, rural or remote areas of Australia. Accredited posts include general practices, Aboriginal and Torres Strait Islander medical services, hospitals, emergency departments and retrieval services.

ACRRM accredited training posts are generally suited to doctors who can function competently, with significant responsibility for making patient care decisions, under broad supervision.

ACRRM recognises training posts accredited by state or territory Postgraduate Medical Council (PMC) as training placements for CGT. These posts are suitable for doctors requiring higher levels of supervision for example doctors who commence training in PGY2.

ACRRM also recognises training posts accredited by other specialist colleges as suitable for short term placements to fulfil mandatory training requirements. Posts accredited by other specialist colleges may also be suitable for long term placements.
such as for an AST, however ACRRM accreditation is required. See Training Placements policy.

**Regional, rural and remote placements**

Registrars are required to work in regional, rural and remote locations and gain experience across primary, secondary and emergency care in rural practice in order to gain the competencies, knowledge, skills and attributes described in the Core Generalist curriculum. All registrars must demonstrate minimum training requirements in these rural contexts.

While training requirements for primary, hospital and emergency care and rural and remote practice are defined separately they are designed to be covered concurrently. The ideal training placement involves working in a rural general practice, admitting into the local hospital, providing inpatient care and after hours cover in the emergency department. Experience in rural primary, secondary and emergency contexts can also be gained through several training placements.

Example:

_You have worked for 12 months in a rural location in general practice at 0.5 FTE and at the local hospital at 0.5 FTE providing inpatient and emergency care._

_As such you have now met your minimum training requirements of 12 months rural and remote training as well as six months primary care, three months emergency care and three months inpatient care._

_You may then to build on your rural primary care and/or rural hospital experience and skills for the remainder of your CGT._

**Tertiary hospital placements**

Doctors undertaking hospital placements in PGY2 year must seek placements that provide generalist skills relevant to rural practice, including where possible the following placements:

- General medicine
- General surgery
- Emergency
- Paediatrics
- Obstetrics and gynaecology; and
- Anaesthetics.

Other generalist placements that would be helpful to include are:

- Rehabilitation
- Aged care
- Palliative care
- Intensive care
- Psychiatry
- Emergency (additional placement)

For further information see Training Placements policy
**Training requirements**

The training requirements as described in the Training Program Requirements policy ensure that training is undertaken in all rural contexts.

Registrars are encouraged to maximise their training time to gain the required competencies articulated in the Rural Generalist Curriculum.

* PIERCE A Queensland Rural Generalist Program, Prevocational Integrated Extended Rural Clinical Experience. May cover anaesthetics, paediatrics and obstetrics providing there are enough cases. A supervisor report and logbook covering each discipline is required.
## Requirement

Obstetrics training that equates to 10 weeks or more FTE, at PGY1 or above.

Options to meet this requirement are described below.

## Competencies

The knowledge, skills and attributes that are being worked towards are defined in the Rural Generalist Curriculum: Obstetrics and Gynaecology learning area.

### Accreditation options

Train in a post holding one of the following accreditations:
- PMC
- RANZCOG Fellowship training or
- RANZCOG Advanced Diploma training
- ACRRM CGT

### Training options

10 weeks or more FTE O&G placement, or

- Clinical attachment or work with a Specialist or GP obstetrician (minimum of 10 sessions over no more than 6 months), or
- General Practice placement, or
- Integrated rural hospital placement eg PIERCE*

Plus, for the three options above, demonstrate intrapartum care
- through deliveries
- through simulation by completing one of the following courses
  - Rural Emergency Obstetrics Training (REOT), or
  - Preparation in Maternity Safety (PIMS), or
  - RVTS workshops, or
  - CRANA Maternity Emergency care course

As applicable for the program

- Certificate in Women’s Health DRANZCOG, or
- DRANZCOG Advanced

### Evidence required

- Letter from hospital confirming dates and location of placement
- Supervisor report
- Letter from confirming dates and location of placement
- Supervisor report
- Record 25 antenatal and 25 postnatal consultations
- Complete O&G component of Procedural Skills Logbook (including manage normal delivery)
- Course certificate

- Evidence of completion
**Requirement**
Anaesthetic training that equates to 10 weeks or more FTE, at PGY1 or above
Options to meet this requirement are described below.

**Competencies**
The knowledge, skills and attributes that are being worked towards are defined in the Rural Generalist Curriculum: Anaesthetics learning area.

<table>
<thead>
<tr>
<th>Accreditation options</th>
<th>Training options</th>

</tbody>
</table>
### Requirement
Primary care training of six months or more FTE at PGY 2 or above

### Competencies
The competencies required are defined in Rural Generalist Curriculum:

- **Domain 2:** Provide primary care
  
  - **Domain 1:** Provide expert medical care in all rural contexts
  
  - **Domain 7:** Practise medicine within an ethical, intellectual and professional framework

### Accreditation options | Training options | Evidence requirement
---|---|---
Train in a post holding ACRRM accreditation for CGT, to cover primary care | Six months or more FTE or Prorated over a longer period for part time | Supervisor reports
To demonstrate continuity of care, primary care training must be undertaken |  | Training organisation records
- no less than two days per week, averaged over one month
- in FTE blocks, of no less than three months duration

### Requirement
Secondary care training of three months or more FTE at PGY 2 or above

### Competencies
The competencies required are defined in Rural Generalist Curriculum:

- **Domain 3:** Provide secondary medical care
  
  - **Domain 1:** Provide expert medical care in all rural contexts
  
  - **Domain 7:** Practise medicine within an ethical, intellectual and professional framework

### Accreditation options | Training options | Evidence required
---|---|---
Train in a post holding one of the following accreditations: | Three months or more FTE of hospital placements providing skills relevant to rural practice, (see Tertiary hospital placements section page 9) or Minimum of 60 inpatient rural generalist hospital shifts (minimum eight hours), or | Letter from hospital confirming dates and location of placement or Supervisor reports
- ACRRM CGT, to cover secondary care or
- ACRRM AST
- PMC or
- Specialist College Accreditation

---
Visiting Medical Officer (VMO) with admitting rights, admitting and managing care, for an average of three inpatients per week, over a period of at least 12 months, or

<table>
<thead>
<tr>
<th>Advanced Specialised Training in AIM, Mental Health, O&amp;G, Paediatrics or Surgery.</th>
<th>Evidence of completion</th>
</tr>
</thead>
</table>

### Requirement

Emergency care training of three months or more FTE at PGY 2 or above

### Competencies

The competencies required are defined in Rural Generalist Curriculum:

- Domain 4: Respond to medical emergencies
- Domain 1: Provide expert medical care in all rural contexts
- Domain 7: Practise medicine within an ethical, intellectual and professional framework

### Accreditation options

Train in a post holding one of the following accreditations:

- ACRRM CGT to cover EM or
- PMC or
- ACEM Fellowship or Diploma, Certificate training, or
- AST EM training

### Training options

Three months or more FTE emergency placement, or

- Minimum of 60, (minimum eight hour) shifts in an emergency department, or
- Minimum 12 months FTE in an integrated rural hospital or hospital that provides 24/7 emergency cover, (demonstrating a minimum of 60 shifts) or
- Minimum of 12 months of providing one in four after hours or weekend cover in an emergency department in a hospital that provides 24/7 emergency cover, or

### Evidence required

- Letter from hospital confirming dates and location of placement
- Supervisor reports
- Training organisation records

| Advanced Specialised Training in Emergency Medicine | Evidence of completion |
**Requirement**  
Rural and remote practice training of 12 months or more FTE at PGY 2 or above

**Competencies**  
The competencies required are defined in Rural Generalist Curriculum:

- Domain 8: Provide safe medical care while working in geographic and professional isolation
  
  *Plus*
  
- Domain 1: Provide expert medical care in all rural contexts
- Domain 5: Apply a population health approach
- Domain 6: Work with Aboriginal, Torres Strait Islander, and other culturally diverse communities to improve health and wellbeing
- Domain 7: Practise medicine within an ethical, intellectual and professional framework

<table>
<thead>
<tr>
<th>Accreditation options</th>
<th>Training options</th>
<th>Evidence required</th>
</tr>
</thead>
</table>
| Train in a post holding accreditation for ACRRM CGT, to cover R&R | 12 months FTE living and working in rural or remote community (MM 4-7, or 3 case by case). May live and work in different communities providing they are both rural. The following options providing they total 12 months FTE are suitable:  
  - living and working in the rural location averaging four or more days per week, for example regular fly in fly out arrangements  
  - living and working FTE in rural location in blocks, each of at least three months duration | Supervisor reports  
  
  Training organisation records |
| Prospective approval where time permits  
Retrospective for short notice deployments | ADF registrars may count up to six months FTE for the following deployments:  
  - at sea aboard a Navy ship  
  - leading the treatment team in remote field environment  
  - in a military field hospital  
  - in an aeromedical evacuation  
  - or other types of work as approved  
This applies to deployments as a medical officer of 14 or more continuous days, including pre-activity preparation and post activity refurbishment, but not travel. | Evidence of:  
  - time and  
  - role and  
  - case/treatment log |
**Education**

*Education program*

All registrars are required to actively participate in and complete a structured education program mapped to the Core Generalist component of the Curriculum, provided by an ACRRM accredited training organisation.

Registrars should refer to the College or their training organisation for details of the education program and the requirements for participation.

Participation in the education program counts towards Training Time.

*Emergency medicine courses*

All registrars must successfully complete:

- Rural Emergency Skills Training (REST), provided by ACRRM
  - completed by the end of second year CGT, and
- One Tier 1 course or two Tier 2 courses, approved by ACRRM

All courses must be completed within the 10 years prior to Completion of Training.

One approved Advanced Life Support course must be within three years prior to Completion of Training.

See Glossary, appendix 1 for classification of emergency courses for training

*Approved Tier 1 courses*

Overseas courses that are equivalent to approved courses will also count.

Many of the Tier 1 courses are also EM courses required for AST programs.

Courses must be selected from the currently approved courses. Non approved courses that have been already completed may be considered case by case. Email training@acrrm.org.au. Details of the course program and instructors must be provided.
**ACRRM Online Courses**

All registrars are required to complete at least four approved ACRRM Online Courses as part of their education requirement; these are marked in the online library as ‘FACRRM recommended” courses.

Participation in Tele-Derm National, 150 Shades of Radiology online and ruralEM forum can count towards education requirements.

To be considered as equivalent to one course, for:

- **Tele-Derm National:** registrars are required to, either:
  - submit five of their own cases for review and discussion, or
  - complete 10 case studies with multiple-choice questions successfully completed

- **150 Shades of Radiology online:** registrars are required to
  - complete 10 case studies with multiple-choice questions successfully completed

- **ruralEM forum:** registrars are required to
  - complete 10 case studies with multiple-choice questions successfully completed

The College's Online Courses can be accessed through the [ACRRM website](#)

The library contains interactive courses that are mapped to the curriculum including case studies, in-depth content and discussion boards covering a diverse and expanding range of topics, such as:

- dermatology (Tele-Derm)
- palliative care
- ruralEM forum
- skin surgery (a user’s guide to skin surgery); and
- radiology (basics of radiology series)

**Other courses**

Courses that are undertaken by registrars relating to the Rural Generalist Curriculum, that are five or more days in duration, may be approved to count towards Training Time.

The following courses are approved for ADF registrars:

- Medical Officer Introductory Course
- RAAF Operational Health Support Course
- Medical Officers Underwater Medicine (MOUM) Course
- Rotary Wing Aeromedical Evacuation (RWAME) Course
- ADF Aeromedical Evacuation Course
- ADF Aviation Medical Officer (AVMO) Course
- Occupational Medicine Course
- Joint Health Planning Course
Assessment
Registrars must satisfactorily complete the following assessments during CGT

- Supervisor reports, each six months, or at the end of a training placement if less than six months
- Nine mini Clinical Evaluation Exercises (miniCEXs), conducted by supervisors, medical educators and other Fellows of ACRRM
- Certification of the Procedural Logbook skills
- Multi-Source Feedback (MSF), early in training, ideally while working in primary care

Obtain a pass grade in the following assessment by the end of training

- Multiple Choice Questions (MCQ)
- Case Based Discussion (CBD)
- Structured Assessment using Multiple Patient Scenarios (StAMPS)

Information on these assessment and resources available to assist with preparing for assessment are provided in the Fellowship Assessment Handbook.

Assessment eligibility requirements must be met prior to enrolling into an assessment see the Assessment Eligibility policy.
Advanced Specialised Training

AST may be undertaken at any stage of training providing that registrars are at least postgraduate year three or above. It is expected that registrars have core generalist knowledge and skills in the discipline prior to commencing AST.

AST may be undertaken as full time or part time training or in two or more blocks. The time, training, education and assessment requirements for each AST are described below.

Registrars are encouraged to consider working towards related academic qualifications while undertaking their Advanced Specialised Training year especially in Population Health, Remote Medicine, Aboriginal and Torres Strait Islander Health, Academic Practice and Mental Health. This may include work towards Graduate Certificate, Graduate Diploma, or master’s level qualifications in a related area. See Appendix 3.

Information and requirements for each type of assessment is provided in the Assessment Handbook.

Aboriginal and Torres Strait Islander Health

Time
Minimum 12 months FTE.

Training
Train in Aboriginal Community Controlled Health Services accredited by ACRRM.

Education
- Registrars participate in education sessions provided by the training post
- Registrars must complete the following courses:
  - Cultural Awareness' module accredited for the Practice Incentive Payment (PIP) Indigenous Health Incentives or other cultural awareness training program accredited for PIP and
  - ACRRM “Introduction to Population Health” online learning course.

Assessment
Registrars must:
- Submit clinical supervisor reports, each six months, or at the end of a placement if less than six months
- Submit academic supervisor reports with project proposal and completed project
- Submit five miniCEXs conducted by a supervisor
- Successfully complete a Project, during AST, that is related to Aboriginal and Torres Strait Islander Health that meets the requirements as documented in the Assessment Handbook
**Academic Practice**

**Time**
Minimum 12 months FTE.

**Training**
Train in ACRRM accredited placements that integrate academic practice (teaching and research) with a clinical workload.

**Education**
Registrars participate in education sessions provided by the training post.

Registrars must successfully complete a Clinical Education Course, for example but not limited to: Train the Trainer, Teaching on the Run, Teach the Teacher, Cert IV Training & Assessment.

**Assessment**
- Submit clinical supervisor reports, each six months, or at the end of a placement if less than six months
- Submit academic supervisor reports with project proposal and completed project
- Successfully complete, a Project during AST, that related to Academic Practice that meets the requirements as documented in the Assessment Handbook

**Adult Internal Medicine**

**Time**
Minimum 12 months FTE.

**Training**
Train in ACRRM accredited AIM AST posts, ideally in a regional or rural hospital.

Placements to include inpatient, outpatient and community based facilities.

Employed as registrar or equivalent position.

**Education**
Registrars participate in the RACP registrar education program and education sessions tailored to the AST curriculum.

**Assessment**
Registrars must:
- Submit clinical supervisor reports, each six months, or at the end of a placement if less than six months
- Submit five miniCEXs conducted by a supervisor
- Gain a pass in AST AIM StAMPS
Anaesthetics

Time
Minimum 12 months FTE.

Training
Registrars undertake the Joint Consultative Committee for Anaesthetics (JCCA) training program.

Train in Anaesthetics posts accredited by Joint Consultative Committee for Anaesthetics (JCCA).

Education
Registrars participate in the ANZCA registrar education program and education sessions tailored to the AST curriculum.

Registrars must successfully complete mandatory courses.

Assessment
Complete JCCA assessment.

Submit a current JCCA statement of completion to ACRRM.

Emergency Medicine

Time
Minimum 12 months FTE.

Training
Train in an Emergency Department accredited by ACRRM.

Employed as a registrar or equivalent position.

Education
Registrars participate in the ACEM registrar education program and education sessions tailored to the AST curriculum.

Registrars must successfully complete or be a recognised instructor in one course from each of three categories below:

- Trauma:
  - Early Management of Severe Trauma (EMST), or
  - Emergency Trauma Management Course (ETM)

- Adult:
  - Rural Emergency Skills Training (REST), or
  - Adult Life Support Australian Resuscitation Council Level 2 (ALS2), or
  - Emergency Life Support (ELS), or
  - Advanced and Complex Medical Emergencies (ACME), or
  - Effective Management of Anaesthetics Crises (EMAC)

- Paediatrics:
  - Advanced Paediatrics Life Support (APLS) course, or
Advanced Paediatric Emergency Medicine course (APEM)

An adult and a paediatrics course must have been undertaken in the five years prior to completing the AST.

Candidates are also recommended to undertake an emergency obstetric course such as Rural Emergency Obstetric Training (REOT) or Preparation in Maternity Safety (PIMS).

The following definitive texts are used in this AST:

Assessment

Registrars must:

- Submit clinical supervisor reports, each six months, or at the end of a placement if less than six months
- Submit five miniCEXs conducted by their supervisor
- Gain a pass in AST EM StAMPS
- Successfully complete the AST EM logbook

Obstetrics and Gynaecology

Time

Minimum 12 months FTE.

Training

Registrars undertake the Advanced Diploma of the Royal Australian and NZ College of Obstetrics and Gynaecology (DRANZCOG Advanced) program.

Placements in O&G posts accredited by RANZCOG.

Education

Registrars participate in education provided by training post.

Registrars must complete education modules specified by RANZCOG.

Assessment

Complete DRANZCOG Advanced assessment.

Submit a current DRANZCOG Advanced Certificate to ACRRM.

Mental Health

Time

Minimum 12 months FTE.

Training

Train in a mental health service in a regional or rural hospital accredited by ACRRM.

Placements in inpatient, outpatient and community based care. Ideally include a short-term placement in an addiction medicine service.
Employed as a registrar or equivalent position.

**Education**

Registrars participate in the RANZCP registrar education program and education sessions tailored to the AST curriculum.

Registrars must successfully complete the following courses:

- an GPMHSC approved Level 2 Focussed Psychological Strategies Skills Training (FPS ST)
- the ACRRM “Introduction to Population Health” online learning course

**Assessment**

Registrars must:

- Submit clinical supervisor reports, each six months, or at the end of a placement if less than six months
- Submit five miniCEXs conducted by their supervisor
- Gain a pass in AST Mental Health StAMPS

**Paediatrics**

**Time**

Minimum 12 months FTE.

**Training**

Train an ACRRM accredited paediatric service in regional or rural hospitals.

Placements ideally include paediatric acute care, community and child psychiatry.

Employed as a registrar or equivalent position.

**Education**

Registrars participate in the RACP registrar education program and education sessions tailored to the AST curriculum.

Registrars must successfully complete the following courses:

- Advanced Paediatric Life Support (APLS) course
- Neonatal resuscitation course and
- Child protection course covering:
  - identifying and responding to children and young people at risk
  - jurisdiction reporting requirements (many short online courses are available).

**Assessment**

Registrars must:

- Submit clinical supervisor reports, each six months, or at the end of a placement if less than six months
- Submit five miniCEXs conducted by their supervisor
- Gain a pass in AST Paediatric StAMPS
Palliative Care

Time
Minimum 12 months FTE.

Training
Train in a Palliative Care service accredited by ACRRM. Ideally in a regional location.
Placements will ideally include inpatient, outpatient and community based care.
Employed as a registrar or equivalent position.

Education
Registrars are required to participate in the education program provided by the training post.
Registrars must successfully complete the following ACRRM Online learning courses:
• Palliative Care - A doctor’s bag
• Palliative Care in Aged Homes
• Opioid Medication in Palliative Care
• Palliative care - choose your own journey
• Living longer, Dying better
• GP Pain Help App

Candidates are encouraged to complete the Clinical Diploma in Palliative Care - RACP.

Assessment
Registrars must:
• Submit clinical supervisor reports, each six months, or at the end of a placement if less than six months
• Submit five miniCEXs conducted by their supervisor
• Gain a pass in Palliative Care Case Based Discussion

Population Health

Time
Minimum 12 months FTE.

Training
Train in a dedicated public population health service accredited by ACRRM or in a post accredited by ACRRM for CGT.

Education
Registrars are expected to participate in the education program provided by the training post.
Registrars must complete the ACRRM ‘Introduction to Population Health’ online learning course.

Registrars are also encouraged to consider working towards related academic qualifications while undertaking their Advanced Specialised Training in Population Health. See Appendix 3 for related programs.
Registrars must successfully complete an Epidemiology course at Graduate Certificate level or higher, covering:

- fundamental principles of epidemiology
- critical appraisal of epidemiological publications
- application of study design to a research situation and
- the strengths and weaknesses of the main study designs.

**Assessment**

Registrars must:

- Submit clinical supervisor reports, each six months, or at the end of a placement if less than six months
- Submit academic supervisor reports with project proposal and completed project
- Submit five miniCEXs conducted by their supervisor
- Successfully complete a Project, during AST, that relates to Population Health that meets the requirements as documented in the Assessment Handbook.

**Remote Medicine**

**Time**
Minimum 12 months FTE.

**Training**
Placements in a dedicated remote post or a post accredited for CGT or in MM 6-7 location or MM 5 case by case accredited by ACRRM.

**Education**
Registrars must participate in the education program provided by training post.

Registrars must successfully complete the ACRRM 'Introduction to Population Health' online learning course.

**Assessment**

- Submit clinical supervisor reports, each six months, or at the end of a placement if less than six months
- Submit academic supervisor reports with project proposal and completed project
- Submit five miniCEXs conducted by their supervisor
- Successfully complete a Project, during AST, that relates to Remote Medicine that meets the requirements as documented in the Assessment Handbook.

**Surgery**

**Time**
Minimum 24 months FTE.

**Training**
Train in a regional secondary or tertiary referral hospital with general surgical services, accredited by ACRRM.

Work in general surgical services, ideally with short-term placements in orthopaedic trauma, O&G, burns, vascular and plastics.

Employed as a registrar or equivalent position.
Education
Registrars participate in the RACS registrar education program and education sessions tailored to the AST curriculum.

Registrars must successfully complete the following courses:

- RACS Australian and New Zealand Surgical Skills Education and Training (ASSET) course or RANZCOG Basic Surgical Skills Workshop
- Early Management of Severe Trauma (EMST)
- Care of the Critically Ill Patient (CCrISP)

Candidates are required to complete Gastroscopy & Colonoscopy training that meets the requirements of the Conjoint Committee for Recognition of Training in Gastrointestinal Endoscopy (CCRTGE).

Assessment
Registrars must:

- Submit supervisor reports six monthly
- Maintain a log of surgical procedures
- Submit ten miniCEXs conducted by their supervisor
- Gain a pass in AST Surgery StAMPS
Training Program Policies

View training program policies

Training

Eligibility for Training
This policy describes the eligibility requirements to apply to the ACRRM Training Program. It covers eligibility for first time applicants, repeat applicants and applicants who have previously been accepted for training but not completed.

Recognition of Prior Learning
This policy aims to provide guidelines for the granting of recognition of prior learning that is deemed comparable to the training program requirements for training, education and assessment program. Recognition of prior learning is assessed in consideration of currency of experience, skills, knowledge and time.

Training Program Requirements
This policy defines the requirements that must be met to complete the ACRRM Training Program.

Performance and Progression
This policy sets the requirement for registrars to demonstrate progression through training and to improve the level of performance during training. Registrars must achieve Fellowship within 10 calendar years from the commencement of training unless there are extenuating and unforeseen circumstances.

Training Time
This policy defines the minimum Training Time for registrars on the ACRRM Training Program. It defines how training time is accrued and provisions for part-time training.

Training Placements
This policy sets the requirements that need to be met to have a placement count towards Training Time.

Overseas Training Placements
This policy sets the requirements that need to be met for training placements to be undertaken outside Australia.

Medicare Provider Number
The policy defines the situations where ACRRM will support an application to be placed on the Register of Approved Placements while in training, and when advice will be provided to Department of Human Services (DHS) to remove a registrar from the Register of Approved Placements. This policy applies to IP registrars only.

Registrar in Difficulty
This policy defines ‘a registrar in difficulty’ in the context of the Training Program and defines the responsibilities for the registrar, training post, training organisation and the college when a difficulty is identified.
Leave from Training
This policy defines leave that can be taken while on the Training Program, including statutory and additional leave. Additional leave provisions are specific to the training pathway, links are provided to relevant policies.

Training Pathway Transfer
This describes the policy to transfer from AGPT or RVTS training pathways to IP.

Withdrawal from Training
This policy defines voluntary and involuntary withdrawal from training, the reasons for actioning involuntary withdrawal and the actions that follow withdrawal.

Doctors who have withdrawn either voluntarily or involuntarily may apply for re-entry to training, acceptance is at the discretion of the College.

Assessment
Assessment Eligibility
This policy defines eligibility requirements to enrol in and undertake assessments, rules around reattempting assessments and undertaking assessments while on leave from training.

Special Consideration policy
This policy describes the criteria by which candidates may apply for reasonable adjustments to accommodate for circumstances beyond their control and which is likely to affect participation in assessment.

Conduct, behaviour and access
Academic Code of Conduct
The Code of Conduct aims to provide a clear statement of the College’s expectations of doctors participating in education or training programs in respect to personal and professional conduct and a duty to disclose a review of or changes to medical registration.

Academic Misconduct
The Academic Misconduct Policy defines how alleged breaches of the Academic Code of Conduct are investigated and the penalties that may be applied for proven misconduct.

Access to Training
This policy describes how the College seeks to ensure that doctors with a disability can access and participate in the ACRRM Training Program on the same basis as other doctors. It applies to selection into training and training.

Complaints
The complaints policy outlines the principles and processes for handling complaints. It is applicable to any person accessing College services or programs.

**Reconsideration, Review and Appeals**

This policy defines College decisions that can be reconsidered, reviewed, or appealed. The policy defines the processes and timeframes and the possible outcomes.

The policy also applies to decisions made by Regional Training Organisations, delivering ACRRM training. All disputes relating to a decision made by a Regional Training Organisation (RTO) must first be considered through the RTO’s dispute resolution and/or appeals process before an application for Review can be submitted to the College.

**Refund**

This policy details the circumstances under which refunds are paid.
Information, support and advocacy

While ACRRM training requirements are outlined in this handbook and the policies are the same nationally, there are differences regionally in the delivery of the program. There are also requirements that may be specific to your training pathway or Training Organisation. Therefore, you should contact your training organisation delivering your training first for specific advice.

ACRRM is also available to provide information about training and assessment.

You may contact the College at any time by phone on 1800 223 226 or (07) 3105 8200 or email. If your query relates to:

- Training, your training officer will be your best contact. If emailing training@acrrm.org.au, your email will be directed to your training officer.
- Assessment, the assessment team will be your best contact. Email: assessment@acrrm.org.au or
- Membership, ask for the membership officer when you call the College or email: membership@acrrm.org.au

There is a range of available resources, communities and groups through the College and externally for you to connect and network, share your views and find support, including:

Rural Medicine Australia conference

ACRRM and Rural Doctors Association host the Rural Medicine Australia (RMA) annual conference and scientific forum each October. The conference includes a wide range of presentations and workshops relevant to rural and remote practice.

Registrar Committee Assessment Guides

The ACRRM Registrars’ Committee Assessment Guides provide a quick reference, tips and tricks to all the ACRRM assessments.

Research Grants

Registrars training on the AGPT pathway who wish to undertake research as part of training may apply for a funded Academic Post. A registrar in an academic post will work 0.5 FTE in an academic institution and 0.5 FTE in a clinical position in an accredited training post. Registrars may choose to undertake Advanced Specialised Training in Academic Practice, Population Health, Aboriginal and Torres Strait Islander Health or Remote Medicine. The topic of the research and the post where clinical work is undertaken will determine which AST is appropriate.

ACRRM Registrar Committee

The committee provides registrars of the College with an opportunity to provide feedback, suggestions, and advice to the ACRRM Board and Council, which ultimately determines College policy and direction. The Registrar Committee aims to have membership from all training pathways. The Committee represents the views of registrars in Committees of the College including the College Board, College Council, Education Council, Education and Training Committee and Assessment Committee.

The Registrar Committee also represents and advocates for ACRRM registrars on a range of external national fora.

If you have any suggestions or feedback for the committee, or would like to join the committee, or get more involved – please email: registrarchair@acrrm.org.au.
Registrars Online Community

Registrars have access to their own exclusive community on Connect@ACRRM. Connect@ACRRM is an online forum where you can communicate, collaborate and connect with fellow registrars across Australia. Through the dedicated Registrars Community, you can engage in conversation about member-driven topics regarding your education and training journey, work life balance, or life as a Fellow.

ACRRM Registrars Facebook Group

The ACRRM Registrars Facebook group is open to all ACRRM registrars. It has been designed to allow registrars on all ACRRM training pathways to engage and network, as well as keep up with events and ask questions pertaining to ACRRM Assessment and Training.

When registrars join the College for their training, a welcome email is sent containing the link to join the [Registrar Facebook group](https://connect.acrrm.org.au/home), Alternatively, registrars can contact the College and they will be able to send the link.

General Practice Registrars Australia

General Practice Registrars Australia (GPRA) is an independent, not-for-profit organisation. It is funded by the federal government to provide advocacy services for registrars on employment and policy issues in general practice. For further information see: [https://gpra.org.au/](https://gpra.org.au/)

Employee Assistance Program

If you are experiencing workplace, training, exam, or other stresses or issues that are impacting your personal well-being you can call ACRRM's Employee Assistance Program.

ACRRM's Employee Assistance Program is available to any registrar and provides immediate confidential phone counselling support 24 hours, 7 days a week in Australia & Overseas. Phone 1800 818 728.

Counselling aims to resolve work or personal problems before they adversely impact general well-being.

Additional resources and practical advice are available on the Employee Assistance Program [website](https://connect.acrrm.org.au/home).

Doctors Health Advisory Service (DHAS)

DHAS operate a telephone Help Line and are available to provide confidential personal advice to practitioners facing difficulties. They also provide health promotion and educational information through their website and they provide lectures to interested groups.

CRANAPlus Bush Crisis Line
This service has a trained psychologist available 24 hours, 7 days a week through a phone counselling service to all remote and rural registrars, health workers and their families who may be in distress with support and assistance every day of the year at 1800 805 391. More information is available here: https://crana.org.au/support

DRS4DRS
The Drs4Drs website is provided by Doctors Health Services and offers doctors and medical students access to resources to support their own health and wellbeing, as well as training modules to support doctors who treat other doctors. More information is available here: https://www.drs4drs.com.au/

Beyond Blue
Beyond Blue provides free, confidential, 24 hours, 7 days a week phone counselling services for people experiencing mental stress or illness at 1300 22 4636. Further information regarding these and other national services is available here: https://www.beyondblue.org.au/
Professional conduct in training and practice

The College expects the highest professional standards of its fellows, registrars, students and other members, as well as of its staff and contracted professionals involved in our educational programs. It expects that these same people should also be treated according to acceptable professional standards.

Our vision of acceptable professional standards involves always treating others with dignity, courtesy, respect and compassion. The College has a zero tolerance approach with respect to bullying, discrimination and sexual harassment or any other inappropriate behaviours in training and practice. The College also values our members’ efforts toward building personal resilience and self-efficacy to address problems that arise in a positive way.

Employers have a duty under the occupation health and safety law to provide and maintain for their employees, so far as is reasonably practicable, a working environment that is safe and without risks to health. All workplaces in which our registrars train should have in place policies and procedures which can control the risk of harm to all people in that workplace, including physical harm or the experience of bullying, harassment, or sexual discrimination.

If you have concerns about your work environment, discuss your concerns with your supervisor or if you are uncomfortable with speaking with your supervisor for any reason, speak with someone equivalent. If unable to resolve the concerns within your workplace the issue should be raised with your training organisation. ACRRM as your professional college is also available to support and provide advice about any problems that arise regarding inappropriate workplace behaviour during your training experience.

General information on appropriate behaviours in training is available in the General Practice Supervisor Association resource Bullying and Harassment: Pursuing Zero Tolerance in General Practice.

Comments, compliments and complaints

ACRRM welcomes all feedback from registrars and others to enable continued improvement of training. Any formal complaints received by the College will be managed appropriately and will also be de-identified and considered for the purposes of ongoing program improvement. Feedback is encouraged anytime:

- by phoning 1800 223 226 or emailing our training team training@acrrm.org.au; or
- by emailing the Registrar committee registrarchair@acrrm.org.au

ACRRM invites registrars to provide feedback via online surveys:

- following education or assessment events
- training program feedback surveys, and
- as required around specific areas.
Resolving problems

If you have a problem or concern during training the following general principles should assist you to resolve the concern.

- Direct contact is usually the quickest and most effective way to resolve an issue. Raise the issue with the person involved and explain your point of view. Under normal circumstances, this discussion should occur as close to the time of the relevant event as possible.
- If you feel that the issue was not dealt with appropriately as a result of speaking with the person most directly involved, or if you feel uncomfortable speaking with the direct contact, then you should speak with the next senior person of responsibility.
- If you still feel that the issue has not been resolved satisfactorily, you should speak with someone in a senior management position in the organisation responsible.
- If you feel that the issue has not been resolved satisfactorily, lodge a formal complaint in writing.

There are many organisations involved in general practice training and it may not always be clear where to direct your concern. You may wish to seek guidance on where to direct your concern from your training organisation or from ACRRM. As a general guide, the areas of responsibility for the College include the following:

- on all ACRRM training pathways – delivery of assessment
- on the Independent Pathway - delivery of education and support
- on the AGPT and RVTS pathways – ensuring training organisations uphold the College Standards for Supervisors and Teaching Posts and Standards for Training Organisations and deliver training in accordance with the ACRRM curriculum.

Areas in which the College does not have direct responsibility include, on AGPT and RVTS:

- the delivery of education
- placement of registrars
- identifying, supporting and monitoring supervisors and teaching posts.

ACRRM, AGPT and all the training organisations will have a complaints policy to guide the process.

Where all efforts to resolve the Complaint at the local level have been exhausted, the registrars can refer the matter to the College for consideration.

[ACRRM’s complaint policy](#)

</table>
| Advance Life Support (ALS) | ALS skills and knowledge must include:  
• An understanding of, and practical competence in, one-person and two-person expired air resuscitation and external cardiac compression  
• Competence in airway management techniques that include Guedel airway, bag and mask, oxygen therapy and either laryngeal mask or intubation  
• Demonstrated ability to efficiently use automated external defibrillators (AEDs) and/or biphasic defibrillators  
• Demonstrated ability to identify and manage basic arrhythmias; and  
• Competence in intravenous access and drug therapy. |
| Candidates | Doctors enrolled to undertake an assessment |
| Competency | Observable abilities that require the integration of multiple knowledge, skills and attributes. |
| Education program | The education that is provided during training; this may be provided by the training post, training organisation or the College. |
| MMM | The Modified Monash Model is a geographic classification system that categorises metropolitan, regional, rural and remote areas. For more information on the MM system see: [http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/Classification-changes](http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/Classification-changes) |
| Formative assessments | This includes supervisor reports, miniCEX and other assessments undertaken by supervisors or medical educators |
| Non-VR Support Funding | Funding provided by the Commonwealth to assist non vocationally registered doctors to achieve a general practice Fellowship. |
| Remediation Program | Formal program of work that is documented and agreed by registrar, remediator and Director of Training |
| Show cause | Provide justification explaining why the application should be considered |
| Summative assessments | Multi Choice Question exam, Multi-source Feedback, Case Based Discussion, Procedural Skills Logbook, Project and StAMPS for Core Generalist Training and as relevant for Advanced Specialised Training. |
| Tier 1 emergency course | EM course approved by ACRRM as:  
Highly relevant emergency medicine content applicable in a rural context.  
Not less than 12 hours duration over two days.  
Rigorously assessed using MCQ, skills station and scenario assessment.  
Recognised at national or international level. |

Appendix 3 Tertiary Courses

Courses that may articulate with Advanced Specialised Training programs include, but are not limited to:

Advanced Specialised Training in Public Health, Remote Medicine, Aboriginal and Torres Strait Islander Health:

- Master of Public Health – Menzies School of Health Research in Darwin, [www.menzies.edu.au](http://www.menzies.edu.au)
- Master of Public Health - University of Queensland, [www.uq.edu.au](http://www.uq.edu.au)
- Master of Public Health - Griffith University, Griffith also offers speciality in Agricultural health which can be done externally [https://degrees.griffith.edu.au/Program/5263](https://degrees.griffith.edu.au/Program/5263)
- The Master of Remote Health Practice Program conducted by Flinders University’s Centre for Remote Heath in Alice Springs, [http://crh.flinders.edu.au](http://crh.flinders.edu.au)
- The Master of Public Health and Tropical Medicine conducted by James Cook University in Townsville, [www.jcu.edu.au](http://www.jcu.edu.au)
- The Master of Rural and Remote Medicine conducted by James Cook University in Townsville, [www.jcu.edu.au](http://www.jcu.edu.au)
- The Master of Public Health (Remote and Polar Health) conducted by University of Tasmania and Australian Antarctic Division, [www.utas.edu.au](http://www.utas.edu.au)
- The Master of Public Health conducted by Menzies School of Health Research in Darwin, [www.menzies.edu.au](http://www.menzies.edu.au)

Advanced Specialised Training in Academic Practice:

Possible courses include any Master of Public Health (MPH) programmes, particularly those incorporating a research component, and a range of other options, such as:

• Masters of Health Professional Education by James Cook University
• Masters of Clinical Leadership by University of Tasmania
  http://www.utas.edu.au/courses/hsi/courses/m7m-master-of-clinical-leadership
• Masters of Health Professional Education by Monash University
  https://www.monash.edu.au/study/coursefinder/course/3860/

Advanced Specialised Training in Mental Health:

• Master of Mental Health – University of Queensland:
  https://www.uq.edu.au/study/program.html?acad_prog=5151
• Master of Mental Health Science - Monash University:
  https://www.monash.edu.au/study/coursefinder/course/4508/
• Master of Mental Health Sciences - Flinders University:
• Master of Science in Addiction Studies - University of Adelaide:
  https://www.adelaide.edu.au/addiction
• Master of Health Studies (Addiction Sciences) - University of Queensland School of Public Health http://www.sph.uq.edu.au/
